Unified Communications

15" USB Gooseneck Microphone

Thank you for your purchase of the MXL AC-400 USB 15" USB Gooseneck Microphone. MXL microphones are the result of world-class engineering and manufacturing and are created to provide you with outstanding performance and exceptional value. For best results, please take a few moments to review this literature.

PACKAGE CONTENTS:

- **MXL AC-400 Gooseneck Microphone**
- **Mini USB Cable**
- **Windscreen**
- **Owners Manual**

GENERAL CHARACTERISTICS

This microphone is a standalone, USB powered gooseneck conference microphone. The microphone features a headphone socket (1/8th inch), a lockable mute button, (a red led indicates that the microphone is muted.) and an extension socket to which up to 3 of the optional MXL AC-40EXT microphones may be daisy chained.

CONNECTION

The AC-400 connects directly to any available free USB port on your computer via the supplied USB cable. A green LED on the front of the mic will light up indicating the mic is powered on.
(Connection via USB hubs is not recommended)

OPERATION

The MXL AC-400 needs no special drivers to operate, however some changes may need to be made in the computers control panel to ensure successful operation.

1. Go to **Start ► Control Panel ► Sounds and Audio Devices**.
2. Go to the **Audio Tab**, and in the drop down menu for Sound playback, select **USB Audio Codec**.
3. Do the same in the sound recording drop down menu.
4. Then click **apply**.
5. Close the dialog box. Your AC-400 should be correctly configured to operate correctly with your computer

To monitor sound from your computer, plug any good quality headphones into the 1/8th inch socket marked phones on the back of the microphone. The latching mute button on the top of the microphone mutes the microphone when required, but does not mute the headphone output. A red LED will illuminate whenever the mute button is engaged. The socket marked EXT, is for use with the optional **MXL AC-40EXT** extension microphone, up to 3 of which may be daisy chained to the MXL AC-400 if required. *Full instructions for the connection of extension microphones is supplied with the MXL AC-40EXT.*

WARRANTY

MXL microphones are guaranteed against defects in material and quality for one year from date of purchase. Should you encounter any issues with this unit, please promptly contact the company you purchased it from for assistance. The original dated sales receipt will be necessary for any warranty claim. Do not send any unit directly to us without prior authorization from our service department. Warranty coverage is limited to repair or replacement (at our option) of the microphone, and does not cover incidental damages due to use of this unit, nor damage caused by accidental misuse of this product.
